“Over 3+ years of extensive knowledge and experience in Front-end & UX/UI development with raw passion to learn, adapt and master modern technologies to build a meaningful captivated product.”

## WORK EXPERIENCES

### CarGurus | UI Engineer

Cambridge, MA | Feb. 2020 - Current

- Improving consumer listing page UI and adding featured components to vehicle detail page by using React.
- Creating new dealer and consumer email templates and helping to build A/B tests to increase users retention.
- Collaborating with back-end team to maintain and transfer email templates from legacy system to Iterable email tool.

### BOSTON DIGITAL | Front-End Engineer

Boston, MA | Aug. 2017 - Feb 2020

- Built reusable UI components, customized templates and responsive websites by using HTML5, CSS3/SASS, JS/ jQuery, Zurb Foundation, Gulp, Npm and Git for Content Management System (CMS) — Drupal and Kentico projects, like L.E.K. Consulting, Charles River, Valley National Bank and Cambridge Trust, etc.
- Developed a redesign website on Drupal 8 for FAGE to provide better user experience and web performance that increased users since launch by 29% and decreased page load time by 19%.
- Rebuilt a internal key project by using React with Material UI to optimize UI architecture and web performance.
- Created internal UI components library and adopted best practices for scalable and dynamic web development.
- Maintained front-end testing and ADA compliance for external developers to improve work efficiency, mentored 2 interns to ramp up through entire on-boarding process.
- Collaborated with a cross functional team including back-end, design, UX, and PM within Agile environment.

### BOSTON DIGITAL | Web Development Co-op

Boston, MA | Sept. 2016 - Mar. 2017

- Built meaningful interactive animations and UI widgets to improve user experience and visual flow.
- Created responsive HTML5 email templates and landing pages for marketing campaigns.
- Contributed to productivity through effective websites enhancement, cross browsers' testing, and bug fixes.

### AGENCY COMPILE | Junior Developer

Boston, MA | May - Sept. 2016

- Rebuilt company website to be responsive and optimized user interface by using Bootstrap framework.
- Redesigned and rewrote subscribe and contact us pages with better interactions and vivid animations.
- Experienced in using React to build new employee information system.

---
